SEMINAR

Tight contact structures on some closed hyperbolic three-manifolds

SPEAKER : **Assoc. Prof. Dr. Fırat Arıkan**

DATE : **29 March, 2019**

TIME : **13:30**

PLACE : **Çankaya University (Central Campus), R-213**

Abstract:

We show the existence of tight contact structures on infinitely many hyperbolic three-manifolds obtained via Dehn surgeries along sections of hyperbolic surface bundles over circle.

This is a joint work with M. Secgin.

All interested are cordially invited.

ADDRESS : **Eskişehir Yolu 29.km, 06810, Etimesgut/ANKARA**
